Elephant chair

Generous and light, accommodating and dynamic, the Elephant chair marks a working partnership between Neuland studio and Kristalia.

The basic version is available in hard polyurethane in various colours, with a 4-leg base or slide base with a chrome or satin finish, or in the same colour lacquer. The padded version with cold-foamed polyurethane cushions upholstered in hide is even more refined and comfortable, with handcrafted stitching, which recalls the backbone of an elephant, adding a further touch of natural prestige to the concept of this chair.
